THE FASTEST DELIVERY SYSTEM IN THE WORLD

SUPERIOR PROVEN ADVANTAGES

SUPERDECK platform is the most innovative platform in the world today.

SUPERDECK was developed by **Preston**, the world's leading expert in Platform Technology.

SUPERDECK operates as a super efficient platform to deliver large, heavy and bulky materials to different floor levels of the building.

As a system it also provides a number of benefits that give you breakthrough advantages in completing your building project ahead of time and with reduced cost.

SUPERDECK Features

- Fully retractable platform erected one above the other.
- 5 tonnes Safe Working Load U.D.L. – Heavy duty propping.
- Levelling ramps are flush with the floor creating easy access for fork, hand pallet truck or trolleys.
- Easy “push-pull” handle – one person can “push-pull” “in or out” in seconds.
- Superior safety and best engineered-design platform in the world.

SUPERDECK Benefits

- Faster completion of the building finishes as only one vertical area is left open.
- Man and Material Hoist are more available for faster delivery of personnel.
- Minimised crane movements creating faster and more efficient crane operation.
- Crane operators can “spot” platform in one area, substantially increasing productivity.
- No obstructions to crane rope and load.
- When costing a **SUPERDECK**, calculate the substantial savings throughout your building programme and the overall savings at the end of the project.
- It has been proven many times;
“**SUPERDECK** will save you more than one hour per week. That saving of just one hour will pay for the **SUPERDECK** for a whole week”, but many more hours will be saved, that's real benefits.
- Compared with other delivery systems, **SUPERDECK** is the fastest and most efficient delivery system in the world and will save you time and money.

SUPERDECK is greatly enhanced by the use of palletised building material.

35 SUPERDECKS USED ON THIS PROJECT

MOVE LARGE VOLUME OR BULKY MATERIAL QUICKLY TO FLOOR LEVELS

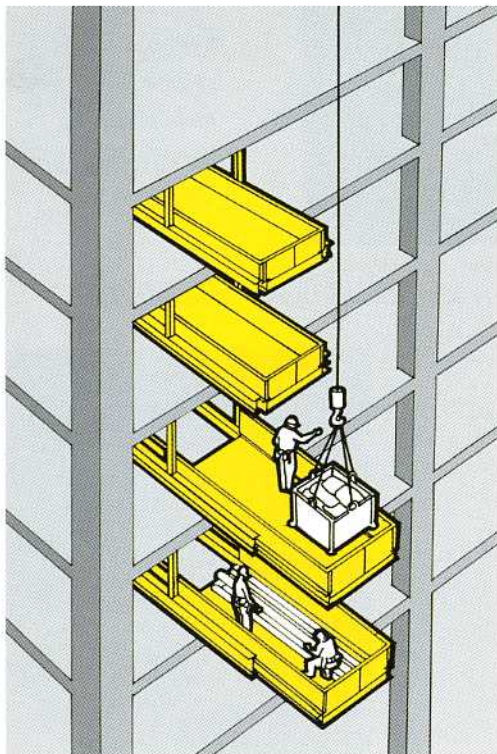

SIMPLE, EASY TO USE

INCREASE PRODUCTIVITY

SAVE TIME AND MONEY, USE ONLY SUPERDECK

SUPERIOR SAFETY

SUBSTANTIALLY INCREASES CRANE EFFICIENCY

PATENTS APPLIED FOR IN ALL MAJOR COUNTRIES

APPLICATIONS AND ADVANTAGES

*SIMPLE SAFE
PUSH / PULL OPERATION*

*MOVE BULKY OR LARGE
VOLUME OF MATERIAL
INSTANTLY WITH EASE*

*EASY
SIMPLE
SAFE
OPERATION*

*INCREASED
PRODUCTIVITY*

*REDUCES BUILDING
TIMETABLE AND SCHEDULES*

*WHERE YOU
WANT IT*

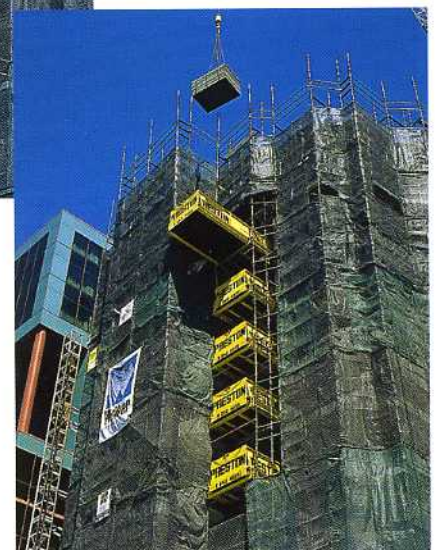

*WHEN YOU
WANT IT*

*READY IN
SECONDS*

*ANY FLOOR ACCESS
AT ANY TIME*

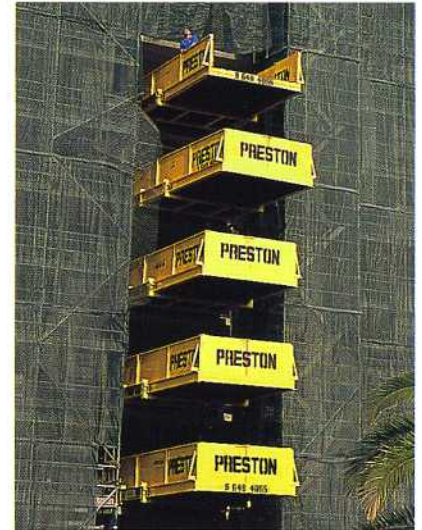

*APPROX 15 MINUTES
TO MOVE SUPERDECK
FROM ONE FLOOR TO
ANOTHER*

**MANUFACTURED TO THE HIGHEST QUALITY STANDARDS
USING TOP QUALITY BEARING AND ROLLING STOCK FOR
SMOOTH AND EASY OPERATION.**

TESTIMONIALS

"A SUPERDECK will save you more than one hour per week of crane time, that saving will pay for the SUPERDECK for that week."

"We only use Preston because it's the best"

"I like them, they're safe and easy to use"

**Air Conditioning
Chiller lifted
to level 32**

"It was so bloody quick and cheap to get them up there"

"We didn't even know SUPERDECK existed when we were planning the lift. We're glad we found you."

"SUPERDECK saved us a bundle of money and we're way ahead in our schedule now."

"Because of the SUPERDECK, all materials are now delivered in cages, we don't even unhook the cages because it's so quick"

"Because SUPERDECK is so easy to move in and out, we unload one truck of bricks on floor levels in minutes"

"mate, it's a beauty, wouldn't use anything else"

TECHNICAL SPECIFICATIONS

STANDARD UNITS SHOWN – CUSTOM MADE UNITS ALSO AVAILABLE

"IN" POSITION

"OUT" POSITION

TIE BAR IN POSITION FOR LIFTING AND TRANSPORT

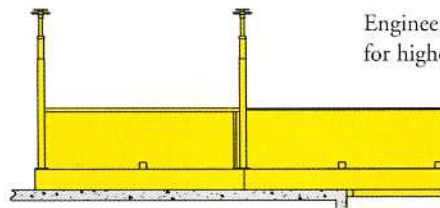

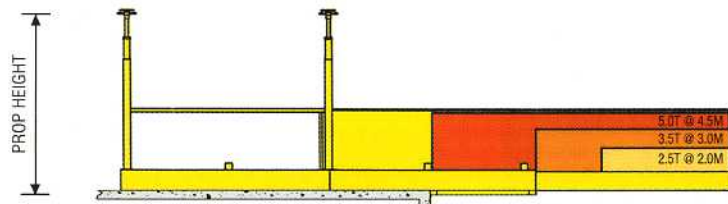

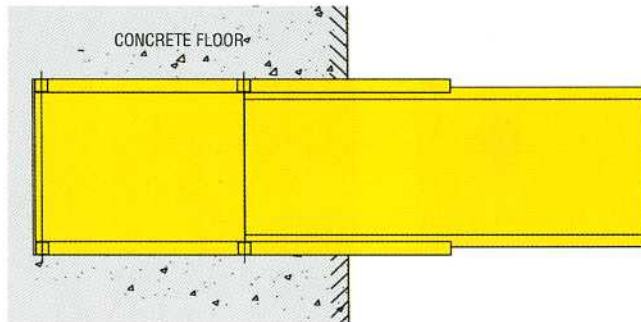

FOOT OPERATED LEVELLING RAMP

SUPERDECK (HEAVY DUTY)
Uniformly Distributed Load (UDL)
■ 5 tonnes UDL over 4500mm Outboard

ENGINEER TESTED AND APPROVED

Tare Weight
3.2m wide unit - 2.8 tonnes
2.2m wide unit - 2.5 tonnes

Engineer approval required for higher propping.

Folds down to 400mm (15 ins)

EASY TO TRANSPORT AND STORE IN YARD
